International Academy for Quality

IAQ Quality in Planet Earth Concerns Think Tank

Mission of the IAQ QiPECTT

***"Bring planet earth concerns to the mainstream of Quality Management
and introduce Quality Management into Planet Earth Concerns"***

IAQ Quality in Planet Earth Concerns Think Tank (QiPECTT)

QiPECTT is engaged in the following:

Firstly, reviewing the fundamentals of Quality Management and further refining it to relate it to social, environmental, and financial dimensions of sustainability. This would help make sustainability a more central concern of business management.

Secondly, build on the results from the first step to influence today's business excellence models used globally to capture all three dimensions of sustainability. This would help to redefine the role of business for sustainable development.

Thirdly, in line with the mission of the Think Tank, bring to light quality management concepts, systems, methods, and techniques to solutions for sustainable development

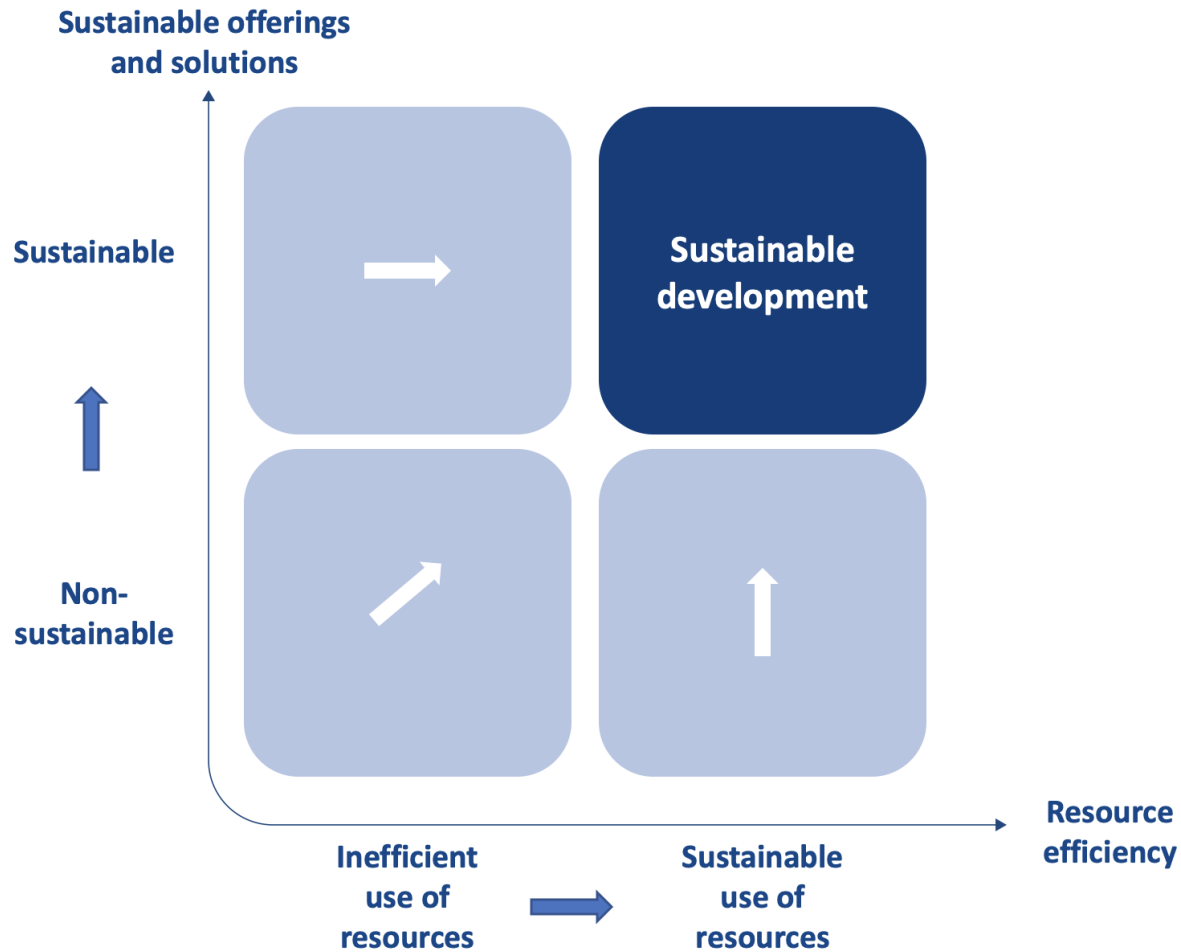

Purpose of the IAQ Quality Sustainability Award

The purpose of the IAQ Quality Sustainability Award is to identify and share good examples of how quality management principles, methods and tools have been used to develop more sustainable solutions and offerings while also reducing waste and optimizing the use of resources.

- **Inspire more result-focused sustainability work**
- **Build and share new knowledge**
- **Establish a foundation for future research**

Linking Quality to Sustainability

Applying for the IAQ Quality Sustainability Award

1. **Finalize a project that successfully delivers results within any of the 17 UN Sustainability Development Goals by using Quality Management philosophies, methodology and/or tools**
2. **Fill in the application form (2-4 pages written in English)**
3. **Develop a one-page summary for publication and research**
4. **Complete the application and attach a voluntary project report**
5. **Mail the application to IAQ**

- GOAL 9: Industry, Innovation and Infrastructure
- GOAL 10: Reduced Inequality
- GOAL 11: Sustainable Cities and Communities
- GOAL 12: Responsible Consumption and Production
- GOAL 13: Climate Action
- GOAL 14: Life Below Water
- GOAL 15: Life on Land
- GOAL 16: Peace and Justice Strong Institutions
- GOAL 17: Partnerships to achieve the Goal

The name of the quality sustainability project (max. 100 characters)

PROJECT DESCRIPTION: General description of the improvement and development work carried out in the project. Explain the essence of the project, the problem statement, the analysis performed, steps taken, and methodology used. Describe also the resources that have been used, human or financial. Finally, describe how the project has contributed to sustainable development in the sense of economic, environmental and/or social sustainability. (Max. 3000 characters)

Note: More information about the award and how to fill this application form can be found at www.iaqaward.com

USE OF QUALITY MANAGEMENT PHILOSOPHY, METHODOLOGY AND TOOLS + LEARNINGS

USE OF QUALITY MANAGEMENT PHILOSOPHY, METHODOLOGY AND TOOLS: Describe how quality philosophy, methodology and tools have been used in the work with achieved effects and results regarding sustainability. It could for example be TQM, six sigma methodology, lean tools, root cause analysis, kaizen activities, etc. (max. 3000 characters)

LEARNINGS: Perform a self-assessment of the work done in the project. Present learnings and important experiences. Focus on how philosophy, methodology and tools of quality management could be used in best ways to improve sustainability. (max. 1000 characters)

RESULTS AND EFFECTS ON SUSTAINABILITY + LEVERAGE POTENTIAL

RESULTS AND EFFECTS: Describe the effects and results on sustainability achieved from the work carried out in the project. Refer to relevant UN Sustainability Goals and present measurable results and effects. (max. 3000 characters)

LEVERAGE POTENTIAL: Elaborate on the potential to leverage the approach and the results from the project. Define possibilities within your own organization and for other organizations to replicate the project or apply ideas from the project in order to have a larger impact on sustainability beyond the project scope. (max. 1000 characters)

AGREEMENT AND ATTACHED DOCUMENTS

I agree that the attached summary is being used by IAQ and the QPECTT members to promote sustainability development through using quality philosophy, methodology and tools. I agree that this summary also could be published by IAQ on the web.

Attachment 1 (required): Summary for publication

Attachment 2 (voluntary): Technical report

Note: More information about the award and how to fill this application form can be found at www.iaqaward.com

One-page Summary for Examination 1 and for Publication and Research

Important information to be included in the one-page summary:

1. Name of the project
2. Name of the company/organization hosting the project
3. Essence of the project
4. Problem statement
5. Steps taken, methods used, analysis performed, etc.
6. Resources used
7. Results achieved
8. UN Sustainable Development Goal(s) affected
9. An appropriate image that reflects the project and the results

The two-step Examination Process

Examination 1:

Nomination of projects participating in the award ceremony

Selection based on the one-page summary.

All nominated projects to be presented at the conference where the award will be announced.

Examination 2:

Deciding the winner(s) of IAQ Quality Sustainability Award

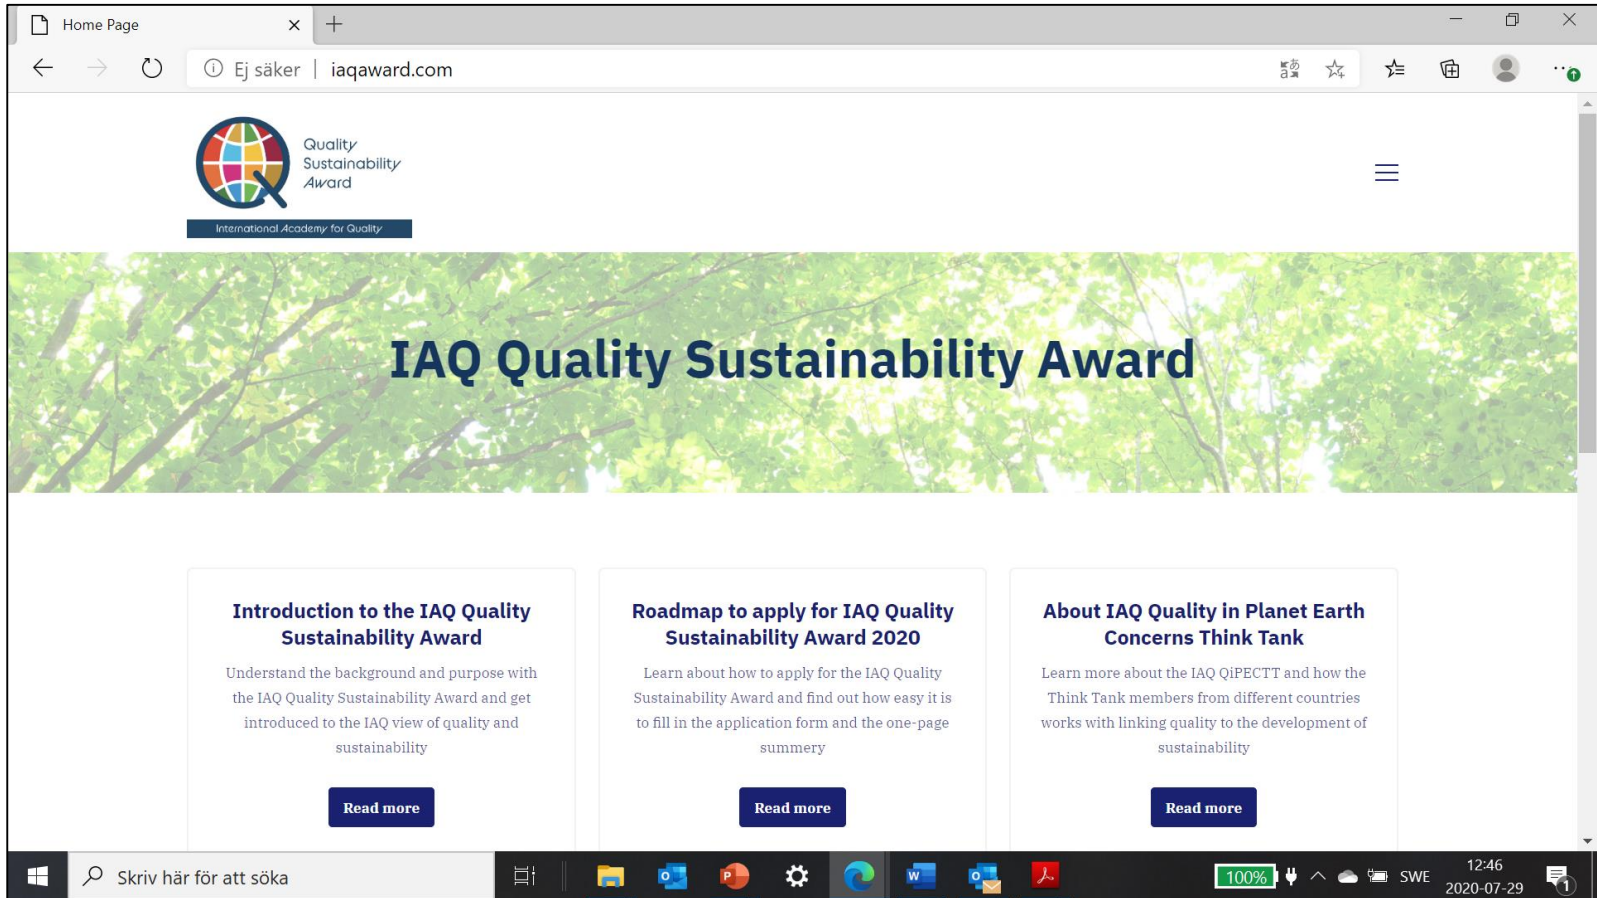

Based on the evaluation of the complete application form.

The final result and the handing over of the award(s) will be done at a special award ceremony.

Evaluation criteria

- **Sustainability Results**
 - Relevance and importance of results
 - Potential leverage to other divisions, activities, ...
 - Impact on and link with the UN SDG's
- **Quality Approach**
 - Sound use of the appropriate quality tools and methods
 - Clear link between approach and results
 - Uniqueness and originality of the approach

All information is available at iaqaward.com

The screenshot shows a web browser window displaying the homepage of the International Academy for Quality (IAQ). The browser's address bar shows the URL "iaqaward.com". The website header features the IAQ logo, which consists of a globe with a magnifying glass, and the text "Quality Sustainability Award" and "International Academy for Quality". A navigation menu is visible on the right side of the header. The main content area is a large banner with a background image of green trees and the text "IAQ Quality Sustainability Award". Below the banner, there are three columns of content, each with a title, a short description, and a "Read more" button. The first column is titled "Introduction to the IAQ Quality Sustainability Award" and describes the award's background and purpose. The second column is titled "Roadmap to apply for IAQ Quality Sustainability Award 2020" and provides information on how to apply. The third column is titled "About IAQ Quality in Planet Earth Concerns Think Tank" and discusses the Think Tank's role in linking quality to sustainability. The browser's taskbar at the bottom shows the Windows logo, a search bar, and various application icons, including File Explorer, Microsoft Office, and the Settings app. The system tray on the right shows the battery level at 100%, the network status, and the date and time as 12:46 on 2020-07-29.
